Please briefly describe what experiences an intern in your district would receive: The experiences would either be at the high school level or elementary/preschool depending on interest areas. The psychologist would oversee the special education program at the site and also participate in intervention discussions at the prereferral level. It would involve working with teachers to help develop academic intervention plans and behavior plans. There are school counselors as well so we work closely with them. There are different self-contained settings at the high school level but not needed for the position at elementary level. If there are other areas of interest we are flexible with that. The supervisor will provide support as needed if the

caseload becomes too much.
